PUBLISHERS

Bangladesh Institute of ICT in Development (BIID), being a distinctive ICT based initiative, intends to take the opportunity to host the paper. BIID is a private sector initiative to contribute to economic development of Bangladesh through integration of ICT in the provision of essential services primarily targeted to farmers, entrepreneurs and potential income generating groups in the rural areas. BIID's activities cover Research & Development, Knowledge and Skill development, Design Business Model for Telecenter (Rural Information Centre) to promote rural businesses specially the micro, small and medium enterprises. BIID is also working in Africa in the field of ICT4D. Strategically, being the sole specialized paper in ICT for development field, has the potential to serve a number of purposes.

The University of Liberal Arts Bangladesh is an institution devoted to developing young minds to their fullest potential through the free and creative pursuit of knowledge. Alongside such intellectual growth, we are also firmly committed to helping the young men and women in our charge to become responsible and caring citizens of their nations, and indeed of the world. We promise to fulfill these aims by adopting an array of traditional and innovative academic and extra-curricular programs, and by bringing to our students the best that has been thought and accomplished in the arts and sciences throughout the world.
